Problem

What do all of the characteristics such as archive_min_int defined in $ACS_CDB/CDB/alma/ XMLs actually do?

Solution

Those characteristics are used by archiving monitors. Details can be found here.

These characteristics are also described in details in the online documentation for the baci CDB schema file:

- http://www.eso.org/projects/alma/develop/acs/OnlineDocs/ACS_docs/schemas/index.html
