

Problem

Can I increase the verbosity and details of Manager logs?

Solution

Yes, like any application based on abeans, there are properties controlling the verbosity and details of logs.

Edit the file:

- `$ACSDATA/config/jManager/PolicyManager.txt`

comment the line:

- `abeans.pluggable.acs.logging.LoggingLevelPolicy=INFO`

and uncomment:

- `#abeans.pluggable.acs.logging.LoggingLevelPolicy=ALL`
