Discussion

Due to the lateness of this meeting, as well as the absence of some of our ACS members, for the short-term in October only the critical requirements will be implemented, leaving the rest of the requirements for later.

Short Term (2023OCT)

- Maintenance (Bug-fixing / Improvements)
 - Investigation
 - **ICT-21601** - Getting issue details... STATUS
 - **ICT-22662** - Getting issue details... STATUS
 - **ICT-22762** - Getting issue details... STATUS
 - **ICT-22731** - Getting issue details... STATUS
 - Tickets
- Obsolescence Management
 - **ICT-21882** - Getting issue details... STATUS

Mid Term (2023DEC+)

- Maintenance (Bug-fixing / Improvements)
 - Investigation
 - Tickets
- BACI Properties Configuration Tool – 2023OCT
- CDB improvements – 2023OCT
 - **ICT-21958** - Getting issue details... STATUS
 - **ICT-22195** - Getting issue details... STATUS
 - **ICT-21964** - Getting issue details... STATUS
 - **ICT-21960** - Getting issue details... STATUS
- Obsolescence Management
 - PyEnv: v2.2.4-1 v2.3.26 – 2023DEC
 - Python: 3.8.5 3.12.x – 2023DEC
 - Python Dependencies – 2023DEC
 - Java Dependencies – 2023DEC
 - Xalan/Serializer: 2.7.2 2.7.3
 - Jaxb
 - Castor: Java Regexp (Instead of Jakarta Oro)
 - ACE/TAO – 2024APR
 - OmniORB – 2024APR
- C++ Modernization
 - C++ Logging Service refactoring/change of technology – 2023OCT 2023APR
 - Analyze alternative technologies

- Prototype implementation
- Redesign of logging system
