ACS-workshop-2020.pdf

Discussion

- Code available in github (ACSFlix)
- The tests were done as multicast services.
- Using multi-cast protocols
- Only integration in ACS-python was exercised

- ALMA wants to move away from DDS due to licensing issues, have to use old binaries. Educational licenses not free anymore.

Other topics

- ACS Modular packaging effort
- High-availability ACS at OS level - delegate the high-availability to the system and not ACS
- Study of the "DeCORBArization of ACS
- Alternative of modern technologies to ACS GUIs (command center, objexp, etc.)
